Fusion Systems in Algebra and Topology (London Mathematical Society Lecture Note Series, Vol. 391) Michael Aschbacher, Radha Kessar, Bob Oliver
A fusion system over a p-group S is a category whose objects form the set of all subgroups of S, whose morphisms are certain injective group homomorphisms, and which satisfies axioms first formulated by Puig that are modelled on conjugacy relations in finite groups. The definition was originally motivated by representation theory, but fusion systems also have applications to local group theory and to homotopy theory. The connection with homotopy theory arises through classifying spaces which can be associated to fusion systems and which have many of the nice properties of p-completed classifying spaces of finite groups. Beginning with a detailed exposition of the foundational material, the authors then proceed to discuss the role of fusion systems in local finite group theory, homotopy theory and modular representation theory. The book serves as a basic reference and as an introduction to the field, particularly for students and other young mathematicians.

From reader reviews:

Dominique Fletcher:

The book Fusion Systems in Algebra and Topology (London Mathematical Society Lecture Note Series, Vol. 391) gives you the sense of being enjoy for your spare time. You should use to make your capable more increase. Book can for being your best friend when you getting strain or having big problem together with your subject. If you can make examining a book Fusion Systems in Algebra and Topology (London Mathematical Society Lecture Note Series, Vol. 391) being your habit, you can get a lot more advantages, like add your current capable, increase your knowledge about some or all subjects. You are able to know everything if you like available and read a publication Fusion Systems in Algebra and Topology (London Mathematical Society Lecture Note Series, Vol. 391). Kinds of book are several. It means that, science reserve or encyclopedia or other people. So , how do you think about this guide?

Sophia Morrison:

This Fusion Systems in Algebra and Topology (London Mathematical Society Lecture Note Series, Vol. 391) is great book for you because the content which can be full of information for you who have always deal with world and have to make decision every minute. This specific book reveal it data accurately using great organize word or we can claim no rambling sentences within it. So if you are read the item hurriedly you can have whole info in it. Doesn't mean it only provides straight forward sentences but hard core information with lovely delivering sentences. Having Fusion Systems in Algebra and Topology (London Mathematical Society Lecture Note Series, Vol. 391) in your hand like getting the world in your arm, details in it is not ridiculous one. We can say that no guide that offer you world inside ten or fifteen tiny right but this reserve already do that. So , this is good reading book. Hey Mr. and Mrs. occupied do you still doubt in which?

Susan Rogers:

In this period of time globalization it is important to someone to get information. The information will make someone to understand the condition of the world. The health of the world makes the information simpler to share. You can find a lot of recommendations to get information example: internet, classifieds, book, and soon. You can see that now, a lot of publisher that will print many kinds of book. Typically the book that recommended to you personally is Fusion Systems in Algebra and Topology (London Mathematical Society Lecture Note Series, Vol. 391) this book consist a lot of the information on the condition of this world now. This particular book was represented how do the world has grown up. The vocabulary styles that writer value to explain it is easy to understand. The actual writer made some exploration when he makes this book. That is why this book ideal all of you.

David Moore:

Reading a publication make you to get more knowledge from the jawhorse. You can take knowledge and

information from a book. Book is composed or printed or outlined from each source which filled update of news. In this particular modern era like today, many ways to get information are available for you actually. From media social such as newspaper, magazines, science guide, encyclopedia, reference book, fresh and comic. You can add your knowledge by that book. Are you ready to spend your spare time to spread out your book? Or just searching for the Fusion Systems in Algebra and Topology (London Mathematical Society Lecture Note Series, Vol. 391) when you needed it?
