Social Issues Georgeta Rata
Social Issues presents some of the social problems with which Romanian society has been confronted after the fall of Communism. National and international forms of migration are analysed in five essays dealing with the unseen face of migration, urban depopulation in Romania, the socio-economic aspects of migration, demographic trends in Romania, and with human trafficking. The construction of identity in both physical and virtual spaces is analysed in eight essays with a focus on social integration, on the redefinition of identity, on the reintegration on the labour market, on the right to self-determination, on identity in the network society, and on stereotype, prejudice, and discrimination. The health state of vulnerable populations is illustrated by four essays on the institutionalised elderly, on residents of lignite quarry areas, and on patients with liver disease. The book will appeal to professionals in the field of social sciences and to decision-makers at all economic, political, and social levels. It will also appeal to all those interested in interdisciplinary approaches.
