*Morrison*

**Lope de Vega and the «Comedia de Santos» (Iberica)** Morrison
Lope de Vega’s (1562-1635) vast dramatic output and his solid reflection of the attitudes and practices of his day uniquely represent seventeenth-century Spain. Similarly, the saint’s play uniquely represents Spain’s Golden Age because only there did it achieve such heights of development and popularity. This study treats Lope’s twenty-five *Comedias de Santos*, clarifies their cultural setting, and traces their ancestry. It reveals the *Siglo de Oro* concept of human perfection and encourages greater attention to the lyricism and techniques of these distinctive plays. The appendices include an annotated list of the Golden Age *Comedias de Santos*.
