Markov Decision Processes with Applications to Finance (Universitext)

Nicole Bäuerle, Ulrich Rieder

Markov Decision Processes with Applications to Finance (Universitext) Nicole Bäuerle, Ulrich Rieder

The theory of Markov decision processes focuses on controlled Markov chains in discrete time. The authors establish the theory for general state and action spaces and at the same time show its application by means of numerous examples, mostly taken from the fields of finance and operations research. By using a structural approach many technicalities (concerning measure theory) are avoided. They cover problems with finite and infinite horizons, as well as partially observable Markov decision processes, piecewise deterministic Markov decision processes and stopping problems.

The book presents Markov decision processes in action and includes various state-of-the-art applications with a particular view towards finance. It is useful for upper-level undergraduates, Master's students and researchers in both applied probability and finance, and provides exercises (without solutions).

From reader reviews:

George Oneal:

Hey guys, do you desires to finds a new book to learn? May be the book with the subject Markov Decision Processes with Applications to Finance (Universitext) suitable to you? The actual book was written by well known writer in this era. Typically the book untitled Markov Decision Processes with Applications to Finance (Universitext)is the one of several books this everyone read now. This book was inspired many people in the world. When you read this guide you will enter the new shape that you ever know previous to. The author explained their plan in the simple way, so all of people can easily to be aware of the core of this e-book. This book will give you a wide range of information about this world now. In order to see the represented of the world on this book.

Nydia Kelly:

This Markov Decision Processes with Applications to Finance (Universitext) is great book for you because the content that is full of information for you who else always deal with world and also have to make decision every minute. This book reveal it information accurately using great plan word or we can state no rambling sentences included. So if you are read this hurriedly you can have whole data in it. Doesn't mean it only offers you straight forward sentences but tricky core information with beautiful delivering sentences. Having Markov Decision Processes with Applications to Finance (Universitext) in your hand like finding the world in your arm, data in it is not ridiculous a single. We can say that no reserve that offer you world throughout ten or fifteen small right but this guide already do that. So , this really is good reading book. Heya Mr. and Mrs. active do you still doubt that will?

Gary Clark:

Is it you who having spare time after that spend it whole day simply by watching television programs or just laying on the bed? Do you need something new? This Markov Decision Processes with Applications to Finance (Universitext) can be the response, oh how comes? A fresh book you know. You are so out of date, spending your free time by reading in this brand-new era is common not a nerd activity. So what these books have than the others?

Kevin Pennell:

You may get this Markov Decision Processes with Applications to Finance (Universitext) by visit the bookstore or Mall. Only viewing or reviewing it might to be your solve difficulty if you get difficulties on your knowledge. Kinds of this reserve are various. Not only simply by written or printed but in addition can you enjoy this book by means of e-book. In the modern era including now, you just looking by your local mobile phone and searching what their problem. Right now, choose your current ways to get more information about your publication. It is most important to arrange yourself to make your knowledge are still change. Let's try to choose right ways for you.
