Reptiles & Amphibians of the Mojave Desert Randall D. Babb
Reptiles and Amphibians of the Mojave: A guide featuring 41 of the most commonly encountered reptiles and amphibians native to the Mohave Desert region of the southwestern United States. Some of the rare and more unique species are included to underscore the biological importance of this interesting biome. The most current taxonomic and common names are used in this guide to assist the enthusiast in keeping abreast with the many changes in this dynamic field. This guide covers Joshua Tree National Park, Death Valley National Park, Mojave National Preserve, Lake Mead, Lake Mohave, Lake Havasu, California State Park, Antelope Valley, California Poppy Reserve and many other areas. Full color photographs and descriptions keying on important characters will help inexperienced and seasoned outdoors people to identify the animal. Species are grouped by similarity to each other which aides in quick comparisons of one animal to another. Accompanying the photograph is information on distribution, behavior, diet, and size of each species of the southwestern United States featuring the most common species and some of the more interesting or unique species found in the area. A photo of each species is included along with information on distribution, behavior, diet, and size.
