Desarrollo en Microsoft Dynamics AX 2012 (Spanish Edition) José Antonio Estevan
Microsoft Dynamics AX es un sistema integral de gestión empresarial (ERP) orientado a empresas medianas y grandes que permite ser ampliado y personalizado utilizando su propio sistema de desarrollo, llamado MorphX, y su propio lenguaje, X++. Se sostiene a su vez en el conjunto de productos que forman la plataforma de servidores y desarrollo de Microsoft. La versión AX 2012 supuso, tras su lanzamiento, una pequeña revolución desde el punto de vista técnico, la cual ha continuado con los abundantes cambios publicados en las sucesivas revisiones. Incluyendo novedades tan interesantes como el soporte para despliegue en la nube, en la reciente revisión R3. Este libro recorre, de una manera ordenada, progresiva y muy documentada, todos los aspectos relevantes para la modificación de la aplicación y el desarrollo de nuevas funcionalidades. Desde aspectos básicos como la arquitectura necesaria para su instalación y configuración, pasando por funcionalidades presentes en todas sus versiones anteriores, hasta las novedades más recientes publicadas en las últimas revisiones. Todo ello redactado de manera homogénea incluyendo trucos, consejos y buenas prácticas. Esta forma de organizar el contenido facilita que la obra sea apropiada tanto para desarrolladores que comienzan su carrera profesional y deciden orientarse a esta plataforma, como a técnicos y consultores experimentados en versiones anteriores que busquen aprender o refrescar las últimas novedades, ya sea para utilizarlas ellos mismos, o para estimar las tareas de sus equipos de trabajo. Por supuesto, resultará interesante para perfiles situados entre estos dos extremos. Como programadores con experiencia en otros entornos, especialmente los de Microsoft; equipos de desarrollo que se ven en la necesidad de asumir proyectos basados en esta tecnología o que deban integrarse con ella desde sistemas externos, etc. Reúne las ventajas de un manual de aprendizaje para conceptos que ya se conocen, junto a las de un libro de referencia donde consultar detalles sobre cuestiones particulares. En resumen, esta obra resulta imprescindible para todas las audiencias que trabajen o necesiten trabajar como desarrolladores o consultores con responsabilidades técnicas en Microsoft Dynamics AX.

From reader reviews:

Daria Gertz:

Nowadays reading books become more than want or need but also work as a life style. This reading habit give you lot of advantages. The advantages you got of course the knowledge your information inside the book that improve your knowledge and information. The data you get based on what kind of e-book you read, if you want drive more knowledge just go with education and learning books but if you want feel happy read one together with theme for entertaining for example comic or novel. Often the Desarrollo en Microsoft Dynamics AX 2012 (Spanish Edition) is kind of publication which is giving the reader capricious experience.

Lynn Bailey:

Playing with family in the park, coming to see the marine world or hanging out with close friends is thing that usually you may have done when you have spare time, after that why you don't try matter that really opposite from that. A single activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of knowledge. Even you love Desarrollo en Microsoft Dynamics AX 2012 (Spanish Edition), you may enjoy both. It is great combination right, you still need to miss it? What kind of hang-out type is it? Oh can happen its mind hangout guys. What? Still don't obtain it, oh come on its called reading friends.

Rhonda Lanham:

The book untitled Desarrollo en Microsoft Dynamics AX 2012 (Spanish Edition) contain a lot of information on it. The writer explains your ex idea with easy method. The language is very straightforward all the people, so do not worry, you can easy to read that. The book was written by famous author. The author will take you in the new period of literary works. You can read this book because you can read on your smart phone, or device, so you can read the book throughout anywhere and anytime. In a situation you wish to purchase the e-book, you can open up their official web-site and also order it. Have a nice go through.

Peter Lombard:

As a university student exactly feel bored in order to reading. If their teacher inquired them to go to the library as well as to make summary for some reserve, they are complained. Just minor students that has reading's internal or real their interest. They just do what the teacher want, like asked to go to the library. They go to at this time there but nothing reading critically. Any students feel that reading through is not important, boring and also can't see colorful photos on there. Yeah, it is to become complicated. Book is very important for you personally. As we know that on this era, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this Desarrollo en Microsoft Dynamics AX 2012 (Spanish Edition) can make you truly feel more interested to read.
