Nivaldo J. Tro

Chemistry: A Molecular Approach, Books a la Carte Plus MasteringChemistry with eText -- Access Card Package (4th Edition) Nivaldo J. Tro
NOTE: This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value—this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.
For courses in Chemistry.
This package includes MasteringChemistry™.

Building 21st Century Data Analysis and Problem-Solving Skills in Modern Chemistry
The **Fourth Edition** of **Niva Tro's *Chemistry: A Molecular Approach*** reinforces students' development of 21st century skills including data interpretation and analysis, problem solving and quantitative reasoning, applying conceptual understanding to new situations and peer-to-peer collaboration.

Nivaldo Tro presents chemistry visually through multi-level images–macroscopic, molecular, and symbolic representations–helping students see the connections between the world they see around them (macroscopic), the atoms and molecules that compose the world (molecular), and the formulas they write down on paper (symbolic). The benefits of Dr. Tro's problem-solving approach are reinforced through digital, Interactive Worked Examples that provide students with an office-hour type of environment and expanded coverage on the latest developments in chemistry. New Key Concept Videos explain difficult concepts while new end-of-chapter problems including Group Work questions and Data Interpretation and Analysis questions engage students in applying their understanding of chemistry. The revision has been constructed to easily incorporate material for instructors and students to engage in Before, During, and After class activities.

Personalize Learning with MasteringChemistry
MasteringChemistry from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students before, during, and after class with powerful content. Instructors ensure students arrive ready to learn by assigning educationally effective content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalytics™. Students can further master concepts after class through traditional and adaptive homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions.

Mastering brings learning full circle by continuously adapting to each student and making learning more personal than ever–before, during, and after class.

From reader reviews:

Darlene Trevino:

Information is provisions for anyone to get better life, information today can get by anyone from everywhere. The information can be a expertise or any news even a problem. What people must be consider when those information which is from the former life are challenging to be find than now's taking seriously which one is appropriate to believe or which one the resource are convinced. If you get the unstable resource then you buy it as your main information we will see huge disadvantage for you. All of those possibilities will not happen inside you if you take Chemistry: A Molecular Approach, Books a la Carte Plus MasteringChemistry with eText -- Access Card Package (4th Edition) as the daily resource information.

Virginia Boone:

People live in this new time of lifestyle always attempt to and must have the time or they will get wide range of stress from both daily life and work. So , once we ask do people have free time, we will say absolutely sure. People is human not really a huge robot. Then we request again, what kind of activity do you possess when the spare time coming to you actually of course your answer will certainly unlimited right. Then do you ever try this one, reading publications. It can be your alternative in spending your spare time, typically the book you have read is definitely Chemistry: A Molecular Approach, Books a la Carte Plus MasteringChemistry with eText -- Access Card Package (4th Edition).

Kenneth Grimes:

Do you like reading a e-book? Confuse to looking for your selected book? Or your book ended up being rare? Why so many query for the book? But just about any people feel that they enjoy intended for reading. Some people likes reading, not only science book and also novel and Chemistry: A Molecular Approach, Books a la Carte Plus MasteringChemistry with eText -- Access Card Package (4th Edition) or even others sources were given expertise for you. After you know how the truly amazing a book, you feel would like to read more and more. Science guide was created for teacher or students especially. Those ebooks are helping them to put their knowledge. In some other case, beside science book, any other book likes Chemistry: A Molecular Approach, Books a la Carte Plus MasteringChemistry with eText -- Access Card Package (4th Edition) to make your spare time more colorful. Many types of book like this.

Jenni Roberts:

What is your hobby? Have you heard this question when you got pupils? We believe that that problem was given by teacher on their students. Many kinds of hobby, Every person has different hobby. And also you know that little person such as reading or as studying become their hobby. You should know that reading is very important and also book as to be the point. Book is important thing to add you knowledge, except your current teacher or lecturer. You will find good news or update regarding something by book. Numerous books that can you take to be your object. One of them are these claims Chemistry: A Molecular Approach,
