**Climate Changed: A Personal Journey through the Science** Philippe Squarzoni
What are the causes and consequences of climate change? When the scale is so big, can an individual make any difference? Documentary, diary, and masterwork graphic novel, this up-to-date look at our planet and how we live on it explains what global warming is all about. With the most complicated concepts made clear in a feat of investigative journalism by artist Philippe Squarzoni, *Climate Changed* weaves together scientific research, extensive interviews with experts, and a call for action. Weighing the potential of some solutions and the false promises of others, this groundbreaking work provides a realistic, balanced view of the magnitude of the crisis that *An Inconvenient Truth* only touched on.

*Climate Changed* is printed on FSC-certified paper from responsibly-managed, environmentally-sound sources.
