Credit Risk Management: from Rating of Single Facilities to Credit Portfolio Management Mag. Andreas Zraunig
In recent days there are hardly any banks left, which are not affected by the recent turmoil on the credit market. That raises the question about the bank's credit risk management. The problems can, in many cases, be directly related to lax credit standards for borrowers and counterparties, poor portfolio risk management, or a lack of attention to the changes in economic or other circumstances. The aim of this book is to explain the credit risk management process from the rating of single facilities to sound credit risk portfolio management.
