S Hodges
The third edition of Hodges and Jackson's "Analysis and Design of Digital Integrated Circuits" has been thoroughly revised and updated by a new co-author, Resve Saleh of the University of British Columbia. The new edition combines the approachability and concise nature of the Hodges and Jackson classic with a complete overhaul to bring the book into the 21st century. The new edition has replaced the emphasis on BiPolar with an emphasis on CMOS. The outdated MOS transistor model used throughout the book will be replaced with the now standard deep submicron model. The material on memory has been expanded and updated. As well the book now includes more on SPICE simulation and new problems that reflect recent technologies. The emphasis of the book is on design, but it does not neglect analysis and has as a goal to provide enough information so that a student can carry out analysis as well as be able to design a circuit. This book provides an excellent and balanced introduction to digital circuit design for both students and professionals.

From reader reviews:

Bertha Costa:

Have you spare time for just a day? What do you do when you have a lot more or little spare time? Sure, you can choose the suitable activity regarding spend your time. Any person spent all their spare time to take a stroll, shopping, or went to typically the Mall. How about open or perhaps read a book eligible S? Maybe it is to be best activity for you. You realize beside you can spend your time using your favorite's book, you can wiser than before. Do you agree with it has the opinion or you have various other opinion?

Ruth McGrath:

What do you ponder on book? It is just for students because they are still students or this for all people in the world, exactly what the best subject for that? Only you can be answered for that query above. Every person has different personality and hobby for every other. Don't to be pressured someone or something that they don't need do that. You must know how great in addition to important the book S. All type of book can you see on many sources. You can look for the internet options or other social media.

George Sanders:

Here thing why that S are different and reputable to be yours. First of all looking at a book is good nevertheless it depends in the content of it which is the content is as tasty as food or not. S giving you information deeper and in different ways, you can find any e-book out there but there is no book that similar with S. It gives you thrill examining journey, its open up your current eyes about the thing that happened in the world which is probably can be happened around you. You can actually bring everywhere like in playground, café, or even in your means home by train. For anyone who is having difficulties in bringing the paper book maybe the form of S in e-book can be your alternative.

Michael Grammer:

Don't be worry for anyone who is afraid that this book will certainly filled the space in your house, you could have it in e-book means, more simple and reachable. This specific S can give you a lot of friends because by you looking at this one book you have factor that they don't and make an individual more like an interesting person. That book can be one of a step for you to get success. This e-book offer you information that perhaps your friend doesn't realize, by knowing more than different make you to be great persons. So , why hesitate? Let me have S.
