Part 1 of this volume focusses on globalization. Gains from trade, international competitiveness, labour market issues in open economies, customs unions, dumping and intra-firm trade are the topics of this part. Part 2 puts a stronger emphasis on dynamic economics. Social income, intergenerational transfers, public pension systems, and bequest and gift motives in overlapping generation models are main topics. Economic policies are analyzed in Part 3, including the relation between wage rigidity and migration, several aspects of German financial and monetary policy, as well as tax competition.
