Transactions on Large-Scale Data- and Knowledge-Centered Systems XIX: Special Issue on Big Data and Open Data (Lecture Notes in Computer Science)

Transactions on Large-Scale Data- and Knowledge-Centered Systems XIX: Special Issue on Big Data and Open Data (Lecture Notes in Computer Science)
The LNCS journal Transactions on Large-Scale Data- and Knowledge-Centered Systems focuses on data management, knowledge discovery, and knowledge processing, which are core and hot topics in computer science. Since the 1990s, the Internet has become the main driving force behind application development in all domains. An increase in the demand for resource sharing across different sites connected through networks has led to an evolution of data- and knowledge-management systems from centralized systems to decentralized systems enabling large-scale distributed applications providing high scalability. Current decentralized systems still focus on data and knowledge as their main resource. Feasibility of these systems relies basically on P2P (peer-to-peer) techniques and the support of agent systems with scaling and decentralized control. Synergy between grids, P2P systems, and agent technologies is the key to data- and knowledge-centered systems in large-scale environments.

This, the 19th issue of Transactions on Large-Scale Data- and Knowledge-Centered Systems, contains four high-quality papers investigating the areas of linked data and big data from a data management perspective. Two of the four papers focus on the application of clustering techniques in performing inference and search over (linked) data sources. One paper leverages graph analysis techniques to enable application-level integration of institutional data and a final paper describes an approach for protecting users' profile data from disclosure, tampering, and improper use.

From reader reviews:

Chris Bynum:

Why don't make it to become your habit? Right now, try to ready your time to do the important action, like looking for your favorite book and reading a book. Beside you can solve your long lasting problem; you can add your knowledge by the guide entitled Transactions on Large-Scale Data- and Knowledge-Centered Systems XIX: Special Issue on Big Data and Open Data (Lecture Notes in Computer Science). Try to stumble through book Transactions on Large-Scale Data- and Knowledge-Centered Systems XIX: Special Issue on Big Data and Open Data (Lecture Notes in Computer Science) as your friend. It means that it can to become your friend when you experience alone and beside that course make you smarter than ever. Yeah, it is very fortuned for you. The book makes you far more confidence because you can know almost everything by the book. So , let me make new experience in addition to knowledge with this book.

Helen Perez:

The book Transactions on Large-Scale Data- and Knowledge-Centered Systems XIX: Special Issue on Big Data and Open Data (Lecture Notes in Computer Science) can give more knowledge and also the precise product information about everything you want. Why then must we leave the great thing like a book Transactions on Large-Scale Data- and Knowledge-Centered Systems XIX: Special Issue on Big Data and Open Data (Lecture Notes in Computer Science)? A number of you have a different opinion about reserve. But one aim that book can give many info for us. It is absolutely appropriate. Right now, try to closer together with your book. Knowledge or details that you take for that, it is possible to give for each other; you could share all of these. Book Transactions on Large-Scale Data- and Knowledge-Centered Systems XIX: Special Issue on Big Data and Open Data (Lecture Notes in Computer Science) has simple shape but the truth is know: it has great and massive function for you. You can seem the enormous world by wide open and read a book. So it is very wonderful.

Deborah Rost:

This book untitled Transactions on Large-Scale Data- and Knowledge-Centered Systems XIX: Special Issue on Big Data and Open Data (Lecture Notes in Computer Science) to be one of several books which best seller in this year, that's because when you read this e-book you can get a lot of benefit upon it. You will easily to buy this book in the book store or you can order it via online. The publisher of this book sells the e-book too. It makes you quicker to read this book, because you can read this book in your Mobile phone. So there is no reason for you to past this publication from your list.

Tamara Evans:

The reason? Because this Transactions on Large-Scale Data- and Knowledge-Centered Systems XIX: Special Issue on Big Data and Open Data (Lecture Notes in Computer Science) is an unordinary book that the inside of the e-book waiting for you to snap that but latter it will jolt you with the secret the idea inside.

Reading this book adjacent to it was fantastic author who else write the book in such amazing way makes the content on the inside easier to understand, entertaining method but still convey the meaning entirely. So , it is good for you for not hesitating having this nowadays or you going to regret it. This unique book will give you a lot of advantages than the other book have got such as help improving your ability and your critical thinking means. So , still want to hold up having that book? If I have been you I will go to the e-book store hurriedly.
