Success is simple, and scientifically reproducible, if you know the 5 Laws

Simpleology proves that success and happiness are easier to achieve than most people think they are. In fact, people can almost guarantee their own success simply by following a few simple rules. These "5 Laws of Simpleology" aren't new; they've been around forever. Throughout history, these 5 laws have helped the world's greatest minds amass fortunes and forge new paths. But until now, no one has committed them to paper in so simple and straightforward a style as Mark Joyner has here. Applicable to any challenge or goal and irrefutably commonsense, these 5 laws form the basis for almost any successful person or endeavor. Simpleology explains the 5 laws in detail and shows readers how to apply them to every aspect of their lives.
